

Minutes of Meeting of Programme Assessment Committee of the Department of Civil Engineering

Prof. (Dr.) Manish Nigam welcomed all the respected members in the meeting.

The meeting of the Programme Assessment Committee of the department of Civil Engineering was held on 11 February 2025. The following are the PAC members:

- | | | |
|-----|----------------------------|---|
| 1. | Prof. (Dr.) Manish Nigam | Convener
Deputy Director & HoD - CE |
| 2. | Er. Avneesh Tiwari | Member Secretary
Assistant Professor – CE |
| 3. | Er. Akhil Pandey | Member
Assistant Professor – CE |
| 4. | Er. Neha Singh | Member
Assistant Professor – CE |
| 5. | Er. Arjit Verma | Member
Assistant Professor – CE |
| 6. | Er. Ajay Prakash Yadav | Member
Assistant Professor – CE |
| 7. | Er. Akhilesh Kumar Rathore | Special Invitee (Internal)
HOD-ME, SRMCEM, Lucknow |
| 8. | Er. Naveen Kumar | Special Invitee (External)
General Manager-North India at Sanrachana Structural Strengthening Pvt. Ltd. |
| 9. | Er. Divyanshu Shukla | Alumni (B.Tech. – CE 2014-18)
State Climate Fellow (Uttar Pradesh), Climate Group |
| 10. | Er. Kshitiz Pandey | Alumni (B.Tech – CE 2008-12)
Assistant Engineer (Public Works Department, Basti) |
| 11. | Er. Rajat Khare | Industry Expert
Structural Designer, Suyash Consultants, Lucknow |
| 12. | Dr. Deepesh Singh | Academic External Member
Professor, HOD-CE, HBTU, Kanpur |
| 13. | Dr. Ritesh S. Ingale | Special Invitee (External)
Assistant Professor, NIT Srinagar, J& K |

The following Agenda were discussed:

Agenda-1: Review and update the Civil Engineering curriculum to align with current industry requirements and emerging trends.

Agenda-2: Strengthen industry-academia collaboration by enhancing internships, guest lectures, and real-world project opportunities.

Agenda-3: Encourage interdisciplinary collaboration by integrating AI, IoT, 3D printing, and other technologies into Civil Engineering projects.

Agenda-4: Facilitate research and publication opportunities by increasing participation in conferences, competitions, and collaborations with reputed institutions.

Agenda-5: Organize futuristic webinars, seminars, and workshops focused on sustainability, innovation, and industry-relevant advancements.

Agenda-6: Modernize laboratory infrastructure and practices by upgrading equipment and ensuring alignment with industry standards and research needs.

Agenda-7: Promote startup culture and entrepreneurship by fostering innovation, leveraging incubation centers, and encouraging market-ready ideas.

Agenda -8: Enhance student assessment and outcome-based education by refining CO-PO mapping and developing methods to measure industry readiness.

Agenda-9: Integrate sustainability principles into academic and research activities by promoting green technologies, sustainable construction practices, and environmental consciousness.

Discussion:

Agenda-1: Review and update the Civil Engineering curriculum to align with current industry requirements and emerging trends.

Speaker: Dr. Deepesh Singh, Er. Akhilesh Kumar Rathore, Er. Akhil Pandey

- Concern raised regarding the limited scope for syllabus changes.
- Suggestion to incorporate additional topics and executive standards to benefit students.
- Proposal to integrate software-based assignments (MS Excel, CAD, STAAD Pro, etc.) to enhance practical learning.
- Assignments should include problem-solving using computer-based tools to improve computational skills.

Agenda-2: Strengthen industry-academia collaboration by enhancing internships, guest lectures, and real-world project opportunities.

Speaker: Er. Naveen Kumar, Er. Neha Singh

- Need for increased student participation in industry visits, internships, and guest lectures.
- Emphasis on membership opportunities with ISHMS (Indian Structural Health Monitoring Society) and ICI (Indian Concrete Institute).
- Encouraging technical memberships to provide exposure to industry standards.

Agenda-3: Encourage interdisciplinary collaboration by integrating AI, IoT, 3D printing, and other technologies into Civil Engineering projects.

Speaker: Dr. Deepesh Singh , Er. Akhilesh Kumar Rathore

- Integration of IoT-based applications in Civil Engineering projects.
- Need for programming (Python) in engineering problem-solving.
- Discussion on 3D printing in building construction, with references to developments in China.
- Collaboration between Civil and Mechanical Engineering departments to explore material advancements for 3D printing.

Agenda-4: Facilitate research and publication opportunities by increasing participation in conferences, competitions, and collaborations with reputed institutions.

Speaker: Dr. Manish Nigam, Er. Rajat Khare, Er. Neha Singh

- Increasing participation in national and international conferences.
- Collaboration with reputed institutions for joint research publications.
- Encouraging students to engage in competitions to showcase innovative ideas.

Agenda-5: Organize futuristic webinars, seminars, and workshops focused on sustainability, innovation, and industry-relevant advancements.

Speaker: Dr. Deepesh Singh, Er. Neha Singh, Dr. Manish Nigam

- Organizing events focused on sustainability, innovation, and industry advancements.
- Conducting hands-on workshops on AI, IoT, and emerging construction technologies.

Agenda-6: Modernize laboratory infrastructure and practices by upgrading equipment and ensuring alignment with industry standards and research needs.

Speaker: Dr. Deepesh Singh, Er. Rajat Khare

- Upgrading lab equipment to align with industry standards.
- Introducing software tools and experimental research to enhance practical exposure.

Agenda-7: Promote startup culture and entrepreneurship by fostering innovation, leveraging incubation centers, and encouraging market-ready ideas.

Speaker: Dr. Deepesh Singh, Er. Neha Singh

- Encouraging project-based learning to foster innovation in materials and construction.
- Collaboration with incubation centers like Kalam Center of Incubation (AKTU Lucknow).
- Focus on sustainable material innovation using waste management techniques.

Agenda -8: Enhance student assessment and outcome-based education by refining CO-PO mapping and developing methods to measure industry readiness.

Speaker: Dr. Deepesh Singh, Dr. Manish Nigam

- Refining CO-PO (Course Outcome - Program Outcome) mapping for better evaluation.
- Measuring industry readiness through project-based assessments.

Agenda-9: Integrate sustainability principles into academic and research activities by promoting green technologies, sustainable construction practices, and environmental consciousness.

Speaker: Er. Divyanshu Shukla

- Collaboration with IGBC (Indian Green Building Council) and GRIHA for sustainability training.
- Case studies on green buildings (e.g., Lucknow Metro, IIT Kanpur's CESC building).
- Promoting energy-efficient designs and environmental consciousness in curriculum.

Attendance Record

S.No.	Members	Designation	Attendance
1	Prof. (Dr.) Manish Nigam	Convener Deputy Director & HoD - CE	P
2	Er. Avneesh Tiwari	Member Secretary Assistant Professor – CE	P
3	Er. Akhil Pandey	Member Assistant Professor – CE	P
4	Er. Neha Singh	Member Assistant Professor – CE	P
5	Er. Arjit Verma	Member Assistant Professor – CE	P
6	Er. Ajay Prakash Yadav	Member Assistant Professor – CE	A
7	Er. Akhilesh Kumar Rathore	Special Invitee (Internal) HOD-ME, SRMCEM, Lucknow	P
8	Er. Naveen Kumar	Special Invitee (External) General Manager-North India at Sanrachana Structural Strengthening Pvt. Ltd.	P
9	Er. Divyanshu Shukla	Alumni (B.Tech. – CE	P

		2014-18) State Climate Fellow (Uttar Pradesh), Climate Group	
10	Er. Kshitiz Pandey	Alumni (B.Tech – CE 2008-12) Assistant Engineer (Public Works Department, Basti)	P
11	Er. Rajat Khare	Industry Expert Structural Designer, Suyash Consultants, Lucknow	P
12	Dr. Deepesh Singh	Academic External Member Professor, HOD-CE, HBTU, Kanpur	P
13	Dr. Ritesh S. Ingale	Special Invitee (External) Assistant Professor, NIT Srinagar, J& K	A

* Dr. Ritesh S. Ingale connected telephonically for putting his thoughts.

M. Ingale
