

MOM: PAC of Department of Civil Engineering

Prof. (Dr.) Atul Kant Piyoosh welcomed all the respected members in the meeting.

The meeting of the Programme Assessment Committee (PAC) of the department of Civil Engineering was held on 28th Oct, 2024. The following are the PAC members:

1.	Prof. (Dr.) Atul Kant Piyoosh	Convener HoD - CE & Deputy Director (Academic)
2.	Er. Avneesh Tiwari	Member Secretary Assistant Professor – CE
3.	Er. Neha Singh	Member Assistant Professor – CE
4.	Er. Arjit Verma	Member Assistant Professor – CE
5.	Er. Ajay Prakash Yadav	Member Assistant Professor – CE
6.	Er. Akhilesh Rathore	Special Invitee (Internal) HoD- ME
7.	Er. Naveen Kumar	Special Invitee (External) General Manager-North India at Sanrachana Structural Strengthening Pvt. Ltd.
8.	Er. Divyanshu Shukla	Alumni (B.Tech. CE: 2014-18) Associate Consultant (Air Quality) KPMG Assurance & Consulting Services LLP
9.	Er. Chirak K Baxi	Industry Expert General Manager ACCORD Specialities Contracting LLC
10.	Dr. Ritesh S. Ingale	External Member Assistant Professor, NIT Srinagar, J&K

The following Agenda were discussed:

Agenda-1:

Review, Evaluate, and Improve the Alignment of the Current Civil Engineering Curriculum with Present Industrial Requirements

Agenda-2:

Evaluation of Teaching Methods and Resources to Ensure Effective Delivery of Course Outcomes.

Agenda-3:

Develop a system for gathering feedback from alumni on their educational experience and how well it prepared them for industry, as well as exploring ways for alumni to contribute to current students' learning.

Agenda-4:

Establish a process for conducting regular assessments of industry trends and needs to keep the curriculum updated and relevant.

Agenda-5:

Identify and incorporate training opportunities focused on essential soft skills (e.g., communication, teamwork, leadership) within the curriculum to better prepare students for the workforce.

Discussion

- **Agenda-1:** Review, Evaluate, and Improve the Alignment of the Current Civil Engineering Curriculum with Present Industrial Requirements

During the discussion, the external member emphasized the syllabus of the current Civil Engineering curriculum. **Dr. Ritesh Ingale** noted that the Building Planning & Drawing Lab, which is currently in the 4th semester, should be moved to the 3rd semester, and the Material Testing & Practices Lab, which is currently in the 3rd semester, should be shifted to the 4th semester. This rearrangement is suggested to improve understanding of these practical subjects. He also mentioned that the application of IOT in Civil Engineering practices has been included, encouraging students to engage in interdisciplinary research work.

Er. Divyanshu Shukla added that subjects which have both theory and practical components are scheduled in the same semester.

- **Agenda-2:** Evaluation of Teaching Methods and Resources to Ensure Effective Delivery of Course Outcomes.

During the discussion, internal member **Er. Akhilesh Rathore** emphasized the importance of first understanding the factors that impact CO-PO attainment. He suggested that once these factors are clear, any course can be delivered more effectively in alignment with its Course Outcomes (COs).

Dr. Ritesh Ingale recommended that student feedback should be collected regularly. Additionally, he suggested providing students with practical exposure, hands-on application of subjects, and arranging industrial visits to help achieve the intended outcomes of each course.

- **Agenda-3:** Develop a system for gathering feedback from alumni on their educational experience and how well it prepared them for industry, as well as exploring ways for alumni to contribute to current students' learning.

During the discussion, alumnus **Er. Divyanshu Shukla** mentioned the importance of practical learning in engineering. He noted that theoretical knowledge often differs from real-world applications and suggested that industrial or site visits are essential for Civil Engineering students. He also recommended that faculty accompany students during these visits to enhance learning.

- **Agenda-4:** Establish a process for conducting regular assessments of industry trends and needs to keep the curriculum updated and relevant.

Dr. Ritesh Ingale suggested inviting professionals from the industrial sector to provide better exposure to current industry trends. He also mentioned that the current Civil Engineering syllabus is outdated and needs to be reviewed to align with modern requirements.

Er. Divyanshu Shukla agreed, emphasizing that industrial experts offer valuable insights into industry practices.

However, **Er. Akhilesh Rathore** noted that while bringing in industry experts for selected topics is beneficial, the syllabus should remain unchanged as it forms the foundation of engineering education.

- **Agenda-5:** Identify and incorporate training opportunities focused on essential soft skills (e.g., communication, teamwork, leadership) within the curriculum to better prepare students for the workforce.

Dr. Ritesh Ingale mentioned that the engineering faculty may not be well-suited for providing soft skills training. To address this, the college has collaborated with professional training experts for soft skills development.

Alumnus **Er. Divyanshu Shukla** shared that during his time at the college, SDP (Skill Development Program)

classes were held for soft skills training, which greatly benefited students. He expressed pride in being an SRMCEM alumnus.

Er. Akhilesh Rathore added that teamwork skills are developed during final-year projects, where students form groups to work on their projects together.

Attendance Record

S. No.	Name	Designation	Attendance
1.	Prof. (Dr.) Atul Kant Piyoosh	Convener	P
2.	Er. Avneesh Tiwari	Member Secretary	P
3.	Er. Neha Singh	Member	P
4.	Er. Arjit Verma	Member	P
5.	Er. Ajay Prakash Yadav	Member	P
6.	Er. Akhilesh Rathore	Special Invitee (Internal)	P
7.	Er. Naveen Kumar	Special Invitee (External)	P*
8.	Er. Divyanshu Shukla	Alumni (B.Tech. CE: 2014-18)	P
9.	Er. Chirag K Baxi	Industry Expert	P*
10.	Dr. Ritesh S. Ingale	External Member	P

* Due to unavoidable circumstances, **Er. Chirag K. Baxi** was unable to join the meeting on Google Meet. Additionally, due to poor network connectivity, **Er. Naveen Kumar** could not join via Google Meet but both members connected telephonically to give his approval and suggestions.
